# **PVC Basic Safety Partition**

a FORMUFIT PVC Plan

Important information. Read carefully. Keep this information for further reference.

#### WARNING

Serious or fatal injuries can occur from using power tools when cutting PVC pipe. Be sure to read and understand the instructions that came with your power tools before using them.

PVC cement is a noxious chemical that should be used in a well ventilated area. If you become dizzy, lightheaded or disoriented, move to fresh air.

### Tools

#### Parts

Quantity	Image	Description	Part Number
2x		1″ 4-Way Tee	F0014WT
2x		1" Standard Tee	F001TEE
<b>2</b> x		1″ 90° Elbow	F00190E
<b>4</b> x		1" External End Cap	F001EEC
12x		1" Pipe Clamp (4")	P001CLP

Additional Supplies

4 Mil. To 6 Mil. Plastic Sheeting

(Approx. 8' x 8' required per partition.) Pipe

•Align and fold over the plastic sheeting across the frame.

•Verify that both sides, top and bottom of the plastic sheet will extend to all sides of the partition.

•Pull the plastic sheeting and apply the PipeClamps along the outer perimeter of the partition and snap them onto the PVC pipe.

•Carefully trim away any excess making sure not puncture the plastic.
